

Shamaz: The Heir of Chaos

Long ago, beyond the silver oceans and the black mountains of the east, there stood the mighty kingdom of Atlanzia. Its towers touched the clouds, its streets shined with marble, and its people believed the gods themselves protected their land.

But hidden behind the beauty of Atlanzia was an ancient secret.

A secret about a forgotten god.

A secret about a boy named Shamaz.

The Boy of the Harbor

Shamaz was born during a violent thunderstorm. The sea roared like beasts, and crimson lightning split the heavens. Many believed the child carried a curse.

His mother, Elena, raised him alone near the harbor district of Atlanzia. She never spoke of his father. Whenever Shamaz asked, she only said:

“Your father belongs to a world beyond ours.”

Shamaz grew into a strong young man with unusual abilities. He healed faster than others. He could lift heavy stones with ease. Sometimes strange black flames appeared around his hands whenever he became angry.

The villagers feared him.

Some called him cursed.

Others called him blessed.

But none knew the truth.

The Blood of Chaos

One night, when Shamaz was nineteen, bandits attacked the harbor warehouses. The city guards were overwhelmed. During the battle, one of the bandits struck Elena with a blade.

Shamaz rushed toward her.

For the first time in his life, rage consumed him completely.

The sky darkened.

The ground cracked.

Black lightning exploded from his body and destroyed the entire harbor in seconds.

The surviving guards stared at him in horror.

In the center of the burning docks, a mysterious symbol glowed on Shamaz's chest — the Mark of Chaos.

An old priest fell to his knees immediately.

“Impossible...”

“He carries the blood of Zelden.”

That night, Elena finally revealed the truth.

Years ago, the god Zelden descended into the mortal world during the War of Broken Skies. He met Elena and fell in love with her. Before leaving, he warned her:

“Our son will inherit both destruction and destiny.”

Shamaz was not human.

He was a demigod.

The Trouble with the King's Guards

News spread quickly through Atlanzia. Many feared that the son of the God of Chaos would destroy the kingdom someday.

The royal guards were ordered to arrest him.

Captain Darius, leader of the king's guard, cornered Shamaz in the central market.

“By order of the king, you are under arrest!”

Shamaz refused. He did not trust the kingdom that feared him for existing.

The guards attacked.

A massive battle erupted through the streets. Spears shattered. Stone pillars cracked. Shamaz tried not to kill anyone, but his powers surged wildly.

In the end, Captain Darius was defeated before the royal palace gates.

Instead of ordering his execution, King Aldric made a different decision.

The king looked at the young demigod carefully.

“If you truly wish to live among humanity, prove that your power serves this kingdom.”

Then the king announced seven impossible tasks.

The people believed the king created them.

But unknown to everyone...

Another god stood in the shadows.

Watching.

Waiting.

The Seven Tasks

First Task — The Beast of Hollow Mountain

Shamaz was sent to slay a giant stone beast terrorizing nearby villages.

Instead of killing it, he discovered the creature was protecting its dying child. Shamaz saved the child and calmed the beast.

For the first time, people began to question whether the demigod was truly evil.

Second Task — The Black Forest

He entered a cursed forest where travelers vanished forever.

There he defeated shadow spirits using the flames of chaos within him.

He emerged after seven days carrying the lost villagers on his shoulders.

Third Task — The Sea Serpent

Atlanzia's ships were being destroyed by a massive sea serpent.

Shamaz dove into the storming ocean and battled the creature beneath the waves.

The fight lasted an entire night.

At sunrise, he returned riding the defeated serpent back to shore.

Fourth Task — The Tower of Silence

The ancient tower was filled with illusions that drove men insane.

Inside, Shamaz saw visions of destruction caused by his own future powers.

He nearly surrendered to despair.

But he overcame the visions and climbed to the top, proving mastery over his own mind.

Fifth Task — The Desert of Ash

The king ordered him to retrieve the Eternal Crystal hidden beneath burning sands.

Thousands had died seeking it.

Shamaz crossed the desert alone and survived creatures made of living fire before returning with the crystal.

Sixth Task — The Army of the Dead

An undead army rose from forgotten ruins in the north.

Shamaz fought for three days without rest.

When the final undead king fell, the northern kingdoms began calling him “The Chaos Guardian.”

Seventh Task — The Gate of Gods

The final task was impossible.

Shamaz was ordered to enter the forbidden Gate of Gods — a place no mortal had ever survived.

Even King Aldric looked uneasy when giving the order.

Because by then, he had learned the truth.

The tasks were never his idea.

They came from an ancient god named Vaelthor.

Vaelthor hated Zelden and desired revenge against his bloodline.

Shamaz walked through the gate alone.

And vanished.

The Angry God

Beyond the gate was a broken realm floating beneath a crimson sky.

There stood Vaelthor himself — enormous, armored in black fire, with eyes burning like suns.

“Son of Zelden,” the god thundered,

“your father destroyed my kingdom ages ago.”

“Now you shall pay his debt.”

Shamaz prepared for battle.

But Vaelthor smiled.

“No. We shall settle this with a game.”

The Game of Kings

The game was ancient.

A divine contest where intelligence, courage, and spirit mattered more than strength.

The board stretched across the heavens itself. Giant glowing pieces moved like living armies.

For seven days they played.

Every move created storms.

Every mistake shattered mountains.

Vaelthor believed a mortal mind could never defeat a god.

But Shamaz inherited not only chaos from his father...

He inherited unpredictability.

On the seventh night, Shamaz sacrificed his most powerful piece and trapped Vaelthor completely.

The god realized too late that he had lost.

The heavenly board shattered.

Vaelthor screamed as his divine power collapsed into dust.

Defeated.

Forever.

Return of the Demigod

Weeks later, the gates of Atlanzia opened.

Shamaz walked through them alive.

The people could not believe it.

The guards who once feared him now bowed their heads.

Captain Darius knelt before him respectfully.

King Aldric himself descended from the throne and embraced Shamaz before the entire kingdom.

“You are no monster.”

“You are the protector of Atlanzia.”

The city celebrated for seven nights.

Songs were written about the demigod who defeated a god.

And during the final celebration, Princess Tatiana stepped forward before the royal court.

She had secretly admired Shamaz since the beginning — not for his power, but for his heart.

King Aldric smiled.

“Atlanzia owes you more than a reward.”

“Will you accept my daughter’s hand in marriage?”

Shamaz looked at Tatiana.

She smiled warmly.

And for the first time in his life, the son of chaos felt peace.

The New Era

Their wedding became the greatest celebration in Atlanzian history.

As fireworks lit the skies, many wondered whether Shamaz would someday become a god like his father.

But Shamaz chose another path.

He chose humanity.

And under the reign of Shamaz and Tatiana, the kingdom of Atlanzia entered an age of peace never seen before.

Yet sometimes, during stormy nights, black lightning still appeared above the royal palace.

A reminder that the blood of chaos still flowed within the king.
